

Dell OptiPlex GX110 Booting Problem

A brand new Dell won't boot . Tried booting from CD-Rom, from floppy disk and hard disk. Will freeze up in Setup Utility.

Actions taken as follows:

- Unplug extension board
- Unplug password jumper
- Turn power on
- Press F2 to go to Setup Utility
- Make sure Num-lock, Cap-lock, and Scroll-Lock are on
- Press Ctrl+Alt+E, hear a beep
- Press Ctrl+Alt+F, hear a beep
- Press Alt+B to reboot
