How to Use the Egan White Board

To Power Up
- Turn the **POWER** switch on the left side to the | position to turn the power on.

- Allow 5 seconds for the Egan White Board to warm up.

To Write On
- Use **Dry Erase Markers** Only. Anything else will destroy the Egan White Board's features.

- Press the **ADVANCE** button to go to the next screen (there are a total of 2 screens).

- If you are going to print a copy of what you write on the Egan White Board, then write with **BOLD, DARK** marker strokes.

- If you are going to print a copy of what you write on the Egan White Board, then avoid using the **Green** Dry Erase Markers (**Green** does NOT show up well on the printout).

To Print a Copy from
- Press the **PRINT** button to print the screen showing.

- Press the **PRINT BOTH SCREENS** button to place both screens on one printout.

- To print 2-9 copies, press the **MULTIPLE COPIES** button until you have selected the desired number of copies.

- Press the **DARKER COPY** button to print a darker copy.
